

HYDRAULIC FLUID REPLACEMENT BOTTLE ref RH

Temporarily and quickly connected it enables to replenish the reservoir of the pumps with the best possible conditions of cleanliness thereby avoiding any risk of pollution of the fluid and of the environment.

The built-in quick coupler either CM7 (male) or CF7 (female) must mate the coupler installed on the pump, see correct bottle reference in the selector table below

Capacity : 0.7 litre.

Ref. of the hydraulic fluid : TOTAL EQUIVIS ZS 15

VERIFICATION KIT

Is composed of the following parts arranged in a sturdy polyethylene carrying case :

- a two-litre can filled with TOTAL EQUIVIS ZS 15 fluid .
- the above mentioned fluid replacement bottle, ref RH .
- a pressure gauge (manometer)
- a two-metre long flexible hose *for the KIT-VERIF-3 only* , since the flexible hoses concerning PICOUP-3 on the picker as well as on the cable cutter cannot be disconnected, refer to the selector herebelow,.....

Reference (*)	Designation(**)
RECHARGE-HUILE-1	RH bottle with CM7 coupler matching the CF7 one of the MOS Pump
RECHARGE-HUILE-2	RH bottle with CF7 coupler matching the CM7 of PICOUP-2 and HYDROPIIC
RECHARGE-HUILE-3	RH bottle with FH200 flexible hose with CF7 coupler matching PICOUP-3
KIT-VERIF-1	RECHARGE-HUILE-1 plus BH2L plus pressure gauge suitable for MOS Pump
KIT-VERIF-2	RECHARGE-HUILE-2 plus BH2L plus pressure gauge SUITABLE for PICOUP-2 and HYDROPIIC
KIT-VERIF-3	RECHARGE-HUILE-3 plus BH2L plus pressure gauge, suitable for PICOUP-3

Important notes:

(*) When ordering please use strictly the very reference indicated : eg : RECHARGE-HUILE-3 .

(**) all parts spelled as components of a given reference are arranged in the polyethylene carrying case mentioned above. BH2L is.....
